Experience

UI UX Design Intern, Codec Technologies 02/2025 – 03/2025

- Conducted user research and analyzed data to identify design opportunities and inform design decisions
- Collaborated with cross-functional teams to create wireframes, prototypes, and high-fidelity mockups
- Facilitated design reviews and user testing sessions to gather feedback and improve design solutions
- Designed **case studies** (e.g., *Haven Homestay App*, *MediConnect Health App*) showcasing problem-solving and usability improvements.

Education

UI UX Design Course, EventBeep 12/2025 – 07/2025

- Intensive, full-time program that provided hands-on training in user-centered design, prototyping, and visual design
- Completed several design projects, including designing a mobile app for Homestay.

Bachelor's Of Computer Applications (BCA), PeopleTree Education Society 10/2021 – 11/2024

Pre-University Course (PUC), PeopleTree Education Society 11/2019 – 07/2021

Projects

MediConnect – UX Case Study 07/2025 – 2025

- Quick access to health snapshot: Users can view their key health metrics instantly on a single dashboard.
- AI-powered symptom checker: Speeds up preliminary health assessment without waiting for a doctor.
- Suggested specialists scroll: Users find relevant doctors faster instead of searching manually.
- Seamless appointment scheduling: Reduces back-and-forth communication with clinics.
- Integrated chat & video consultation: Cuts time spent on phone calls and in-person visits.
- Centralized medical records: Users can quickly share or review past reports without searching multiple locations.

Haven - Homestay Booking Mobile Application, UI UX Design (Mobile UI Design)

- Smart property search & filters: Users can quickly find homestays based on location, amenities, and price without browsing multiple listings.
- Curated recommendations: Personalized suggestions reduce time spent deciding on a stay.
- Seamless booking flow: Streamlined reservation process with minimal steps and clear calls-to-action.

- Integrated calendar & availability: Users instantly know which dates are free, avoiding back-and-forth with hosts.

PureLeaf Organics (Ongoing), UI UX Design (E-Commerce Website)

- Featured products & special offers section: Users quickly discover top-selling items and promotions without searching.
- Intuitive product categories & filters: Enables fast navigation through tea varieties, flavors, and accessories.
- Quick add-to-cart & checkout: Streamlined process reduces time spent completing purchases.

Strength

UI/UX Design Skills

User Interface Design (UI), User Experience Design (UX), Wireframing, Prototyping, Responsive Design, Interaction Design, Design Thinking, User Research, Usability Testing, Information Architecture, Visual Design, Micro- interactions, Accessibility (A11Y), UX Writing.
